

XOANONS® Defoamer

Model number

XOANONS®WE-D9202

Specification

Composition	Modified polysiloxane
Appearance	Clear liquid
Solvent	— —
Active content	100%
Density	0.96-1.00g/ml(25 ± 1)°C
Viscosity	5-50s(Tu-4 viscometer)(25 ± 0.2)°C
Flash point	> 100°C

Note: This datasheet is intended to give typical results, not standard. Subject to COA.

Application system

UV cure

Properties

- Excellent property of foam inhibition .
- Excellent property of bubbles elimination
- The defoaming effect is excellent in roll coating construction.
- The defoaming effect is excellent in UV matting coat.
- Compatibility needs to be evaluated in UV varnish.
- Good slip.

Incorporation

Pre-diluted and added with the solvent of paint and ink system, and can be added later.

Suggest addition

Addition to total formulation 0.1-1.0%

Storage stability

Keep intact 24 months in original package. Products beyond the storage period may continue to be used after inspection. The container must be closed immediately after use.

package

25KG / 180KG
